

# Tapestry

## *Data Protection Impact Assessment*

Organisation Name/Data Controller Name : St Mary's Catholic Primary School

Date final DPIA issued : September 2019

### **Project Brief and Go Live Date:**

Tapestry acts as an online journal for early year's children, it gives teachers the ability to easily survey a child's progression and attainment by compiling a series of photographs, videos and written observations displaying development and interaction. Parents are invited to go on their child's learning journey with them as they can access their child's profile and add their own media and observations to it, if they so desire.

Tapestry-

- Allows easy attainment comparisons to be made against the national curriculum
- Can identify children who are above, on or below average.
- Can survey the coverage of the national curriculum
- Can ascertain a children's understanding of a particular project/subject by looking at the moments captured

A DPIA is required due to the transferring of data to a new processor and the associated privacy risks that this carries due to the volume of personal data Tapestry will hold.

## PART THREE – RISK EVALUATION

<b>Privacy Risks (from part two)</b>  Describe source of risk and potential impact on individuals, compliance and school risks	<b>Options to reduce or eliminate risk</b>	<b>Evaluation</b> Is the risk eliminated, reduced or accepted?
A risk that parents will inadvertently upload special category/sensitive data.	A code of conduct will be sent out to parents informing them of the expectations and suggestions of observations that are appropriate to add. A parents can add something but it needs a manager's approval before it goes live to the journal so this means if staff find anything inappropriate it can be deleted directly and the parents can be contacted to discuss this matter to ensure it doesn't happen again.E.g. just pictures of the child alone with a neutral background.	Reduced
In the event of a subject access request Tapestry is not on the records search about a data subject.	Tapestry is added to the IAR so that it is checked in the event of an SAR.	Reduced
Risk of breaking GDPR Compliance if access and accounts aren't monitored.	The information asset owner is aware of their responsibility to keep the system up to date. Key staff monitor the system on a daily basis.	Reduced
Parents are unaware of the new system.	Privacy Notice is up to date. Parents have been informed of the use of the new processor.	Eliminated
Users are unaware of what is appropriate to upload to the journal and the manner in which to comment.	An acceptable use policy is administered before the start of an academic year to ensure both staff and parents know what proper conduct of behaviour is.	Reduced

Privacy Notice has not been updated to reflect Tapestry's processing activities	The Privacy Notice has been updated in order to ensure transparency.	Eliminated
Location of the Servers being outside the United Kingdom	This will be dependent upon Brexit arrangements, the school will work with Veritau to ensure measures are taken.	Accepted
